Heat Treating · Blasting · Painting

NOW OFFERING **ALUMINUM HEAT TREATING**

- Solution Treating
- Stress Relief
- Aging
- Anneal

Increase Production with Precision Results.

Derrick Company now offers heat treating for a broad range of aluminum parts from a wide variety of industries. Our high performance system is designed with +/-5 deg. F. uniformity and a 10 second quench delay to ensure your material meets the specified properties, as well as a two-tiered hearth for increased production.

A Trusted Partner You Can Depend On.
