Oven Capabilities

# Oven Capabilities

## Stress Relieving Furnace

Installed in 2011. This 16' long, 9' 11" wide, and 8' high furnace is capable of handling a variety of part sizes and geometries. Our stress relieving furnace offers a temperature range of 300° to 1,250° degrees Fahrenheit.

## Tempering Oven

Our newest addition was installed in 2013. This 16' 6" long, 6' 10" wide, and 5' 7" high oven is capable of handling a variety of loads. The temperature range of this oven is 300° to 950° degrees Fahrenheit.

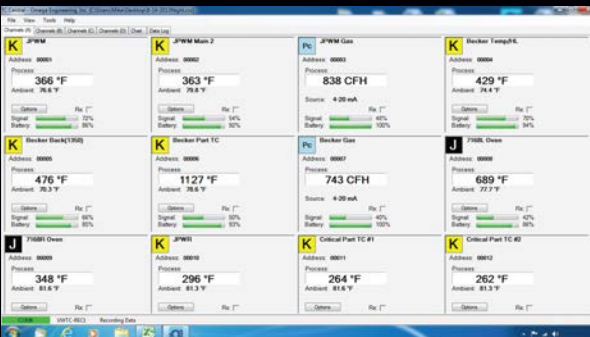

## Tempering Ovens

Installed in 2007, these twin ovens are capable of temperatures ranging from 300° to 850° degrees Fahrenheit. With generous space and drive-in capabilities, these two ovens provide a versatile solution to many tempering needs.

## Electric Tempering Oven

Our first electric oven was installed in 2011. With smaller capacity and temperature capabilities ranging from 200° to 500° degrees Fahrenheit, this oven is designed to handle smaller product with efficient results.

## Touch Screen Monitoring

Our ovens are all monitored utilizing touch screen technology which provides wireless digital cycle recording in real time.
